

## 2012 Goals – Make an Action Plan!

Use this worksheet to list your goals for 2012. Under each goal, write out what you are going to do to make that goal a reality. If it is a financial goal, I recommend breaking it down into monthly/weekly amounts. Then, post this in a spot that you look at on a daily basis. Make a regular appointment to go over your progress on any goals that include other family members. Good luck!
